A1	Requirements Refinement

A2	System Context Analysis

A3	Schematic Architecture Design

A4	Design for Architecture Views

A5	Design for Non-Functional Requirements

A6	Architecture Evaluation

A4a	Design for Functional View

A4b	Design for Information View

A4c	Design for Behavior View

A4d	Design for Deployment View

NOTE

Activity A4 is to design the system architecture from multiple views.
It is carried out through its refined activities, A4a to A4b.
